

SIMPLE CYPHER

Kieran Warner and Christopher Thomas are both YDA Alumni having trained on the Swindon Urban Programme before going into full-time training at the National Centre for Circus Arts and graduating with a BA Honours Degree. Both specialising in Cyr Wheel, the two also share a passion for Hip Hop. Style, originality and unity are key fundamentals of Hip Hop culture and have had a profound influence on their development as circus performers.

Having trained, created and performed together in both dance and circus it has been a natural development to combine and evolve their love for the two into a theatre company. Combining Hip Hop elements including dance and music with circus skills they have created something that breaks away from the stereotypical views of circus and Hip Hop.
